## HELEN GOULD IS MARRIED TO MAN WHO ROSE FROM RANKS

(By Associated Press)  
TARRYTOWN, N. Y., Jan. 22.—Miss Helen Miller Gould was married shortly after noon today at Lyndhurst, her country estate, to Finley Johnson Shepard, an American railroad man who has risen from the ranks.  
The bride went to the altar, half hidden by roses and evergreens, on the arm of her brother, George J. Gould, who gave her in marriage. The orchestra played Lohengrin wedding march while the Rev. Daniel Drussel, pastor of the Irvington Presbyterian church, performed the ceremony. Less than 100 persons were invited to the ceremony, the guests being close relatives of the bride and bridegroom and friends of long standing.  
Helen and Dorothy Gould, neices of the bride, were her only attendants. Louis J. Shepard, brother of the bridegroom, was the best man.

## OTTOMAN EMPIRE WILL ACCEPT PROPOSAL OF EUROPEAN POWERS

(By Associated Press)  
CONSTANTINOPLE, Jan. 22.—The grand council of the Ottoman empire voted today in favor of accepting the proposal put forward by the European powers for the purpose of bringing about a conclusion of peace.  
The note was handed to the porters by the European ambassadors on January 17 and advised that Turkey consent to the secession of Adrianople and leave to them the fate of the Aegean islands. It was pointed out that Turkey could count on the support of the powers only so long as it deferred to their counsel.

## NEWLANDS IN FIGHT OVER FREE TOLLS OF PANAMA CANAL BILL

(By Associated Press)  
WASHINGTON, Jan. 22.—The fight in the senate against the Root amendment to repeal the free tolls provision of the Panama canal bill was opened by Senator O'Gorman of New York today, who replied vigorously to Root's speech yesterday.  
Newlands of Nevada asserted the United States held the domestic rights at Panama, which the foreign powers could not dispute, and proposed the free passage remain in the bill and that the objections of Great Britain be met with an amendment whereby the government would repay the tolls remitted to American coastwise shipping.

## HAS OPTION ON MINING GROUND AT OLD BELMONT

LOS ANGELES MINING MAN HAS THOROUGHLY SAMPLED OLD MINE WORKINGS

Norman E. Smith, a Los Angeles mining man, who is interested in the Belmont district, is in Tonopah for a brief stay. Smith has secured options on about 400 acres of mining ground in Belmont and has thoroughly sampled the district. The old mines have been inspected and the samples were taken from the workings made years ago.  
Smith has secured considerable data relative to mining operations in Belmont during the early days of this state. From the surveyor general's office he secured information that the Belmont mill, upon its completion, could treat ore at a minimum cost of \$42.15 per ton. At that time the mill was the most modern in the state and contained 40 stamps.  
The sampling showed quantities of low-grade ore in the different mine workings, and it is probable that a deal will be consummated as the outcome of the inspection made.

## WILL OPERATE FIRST LEASE AT WILLOW CREEK

LEASERS WITH OUTFITS OF SUPPLIES DEPART TODAY FOR NEW DISTRICT

For the purpose of operating a lease upon which surface assays of \$43 have been secured, Al Wardle and Jake Dakovich leave for Willow Creek tomorrow. The lease is the only one that was granted by the Willow Creek Mining company, which secured the property from the original discoverers, J. J. Vignolo is interested in the lease.  
The lease adjoins the main strike and an 18-inch ledge traverses the surface of the ground. The assay of \$43 per ton was obtained from the surface croppings. The figures showed gold to the extent of \$12 in the rock, the balance being silver. Another assay of \$22 was secured from the surface. The leasers will start working at once and the ore will be sacked as it is extracted. According to indications, as based upon developments in the shaft of the main workings, the ledge will widen out with depth and at the same time an increase in values is noted.  
Wardle stated this morning that between 15 and 20 men are working in the district, the majority operating upon property in the vicinity of the original strike.  
An assay was taken of a sample of a four-inch black streak that penetrates the main ledge of the company workings, showing the streak to be worth \$1062 a ton. The average value of the four-foot ledge, including the rich streak, is about \$262 to the ton.

## LOSE SPEAKERSHIP, PATRONAGE WHEN THEY SWITCH FROM COLE REPUBLICANS WAITING FOR THE DEMOCRATS TO TAKE THE LEAD

(By Special Correspondence)  
CARSON, Jan. 21.—There is a disgruntled lot of democrats in the assembly today, and to add to the feeling a caucus was held this afternoon but harmony was not restored. The fly in the ointment of democratic happiness is the discovery of the Esmeralda county democrats that they had been "bunked" out of the number of attaches promised by the Brandon adherents. In switching from Hunter to Brandon and allowing the last named assemblyman to be elected speaker of the house, it was promised the southern delegates that they would have the say in naming a number of appointments. When the house was organized and the coalition against George Cole was successfully carried out, Esmeralda received but two appointments, while Washoe carried off four places. Naturally the Esmeraldites are sore. The Nye county democratic delegation is also sore, but their actions alone are responsible for the lack of patronage. It will be remembered that Nye county with four democrats in the lower house failed to secure a single appointment, an unheard of action.  
But to return to the Esmeralda grouch. All day today the members of the gold county appeared real touchy. They knew they had been bunked and they knew that the folks in their home county knew they knew they were the victims of a diabolical political plot. Naturally they were sore. A victim of a joke rarely sees the point, and not a single representative from Esmeralda could be induced to smile.  
Oliver of Esmeralda attempted to secure the passage of a resolution for an extra attaché, thus securing a job for Hawkins of Goldfield, who managed Hunter's speakership fight. He was floored by Cole of Nye, who lost out for speaker through the combine of Esmeralda and Washoe with Humboldt. Cole resorted to parliamentary tactics and succeeded in having Oliver declared out of order, although the Esmeralda delegate declared he was in a perfectly healthy condition.

### ROWLAND RETURNS FROM TRIP TO EASTERN PARTS

M. T. Rowland, one of the best boosters southern Nevada ever boasted, returned this morning from an extended business trip to Philadelphia and New York, where he conferred with associates who are interested in a number of mining properties in this section. Rowland, since he adopted Tonopah as his home, has succeeded in interesting a number of eastern capitalists in mining properties and has assisted in the upbuilding of this section of the state. He is a thorough mining man, and knows his business throughout. During his present visit he took occasion to interest capital in Nevada mines.  
"While there is a tightening of capital in the east, it is easy to interest the people with money in a proposition with merit," declared Rowland. "I found everybody vitally interested in Nevada and especially in Tonopah and all were desirous of information concerning this district. The eastern banker and capitalist is willing to make an investment, providing he is familiar with the ground. Merit is required and with a mining property that has merit, it is always possible to secure the needed backing."

### Has Gambling Bill

An attempt will be made to amend the present gambling law during the early part of the session. It is stated that Adams of Esmeralda has a bill to this purpose in his pocket. To what extent his plans for a modification go, cannot be learned, for the southern members are keeping quiet as to the proposition. There appears to be a favorable opportunity for amending the law, and it is believed that the proposed change allows the playing of draw poker. The operation of slot machines will also be permitted, it is understood, if the Adams bill goes through. The anti-gambling forces appear without an organization to fight the passage of the bill, although a few individuals outside the legislature have spoken in opposition to the move.  
Local option will be advocated by the purity league, but this organization has been given to understand that if opposition is made against the amendment to the gambling law, there will be trouble in securing the local option. As the matter now stands the reformers are between the devil and the desert. It appears that they will not oppose the gambling amendment.
